

EROAD

Low cost, easy-to-install GPS tracking with **EROAD Etrack Locate**

EROAD Etrack Locate is an affordable GPS tracker for light vehicles. It's the ultimate device for fleets in need of a simple, affordable fleet management system.

Once installed, you'll have 24/7 access to the MyEROAD fleet management portal as well as our New Zealand-based customer support.

Low-cost, under-dash GPS vehicle tracker packed with great features

We understand that managing your fleet isn't just about tracking location. EROAD can help to keep your fleet running smoothly, safely and efficiently through our purpose-built platform features, reports and apps.

Don't settle for basic apps that are hard to use, don't update or come with no support! Get access to New Zealand's leading fleet management system, at our most affordable price yet.

Simple installation

Low monthly cost

Real-time location tracking

WoF, Rego & Service Alerts

Geofence & vehicle activity history

BENEFITS

- › Easily installed, low-cost hardware
- › Stay on top of your fleet, with 24/7 real-time GPS location tracking
- › Improve operations by managing your fleet in one platform
- › Customise the map and reporting with geofences
- › Understand how long vehicles spend on site, with geofence entry & exit report
- › Maintain compliance with WoF, Rego and Service alerts
- › Efficiently manage pool cars and promote lower emission options, with integrated booking system and user app (optional add on)
- › Right-size your fleet and save on running costs, using fleet utilisation reporting
- › Monitor speeding across your fleet, and choose to be notified if a vehicle is severely speeding
